**Importers and Wholesale Distributors
of Shoe and Footcare products**

Protector:

Protects, prevents discolouration and waterproofs leather, suede, nubuck and fabric from water and oil-based stains. Each application creates a barrier which prevents moisture and dirt from penetrating. Apply to new products or after cleaning.

Leather Cleaner:

Deep cleans, polishes and nourishes leather and synthetic leather.

Hide Food:

Softens, nourishes and preserves leather goods. Restores suppleness and prevents cracking and drying.

Dubbin:

Softens, nourishes, preserves, conditions and waterproofs outdoor leather. Ideal for oil-tanned leather and all types of sporting goods.

Refresh Clean and Shine:

Perfect for quick and easy scuff mark removal with long lasting shine. Ideal for use on synthetic products or patent leathers.

Please note: It is advisable to test the product on an inconspicuous area to ascertain suitability before use.
